

Eco Expo Asia 2012 Exclusive Business Matching Application Form for Buyers

Thank you for choosing **Eco Expo Asia** (27-30 October 2012) as your sourcing platform. To ensure you can get the most out of your time visiting the fair, we are pleased to offer you our professional business matching service **FREE OF CHARGE**.

Please refer to the enclosed exhibitor list and fill in Part A below to guarantee a meeting timeslot with the selected exhibitor(s). Moreover, we will also recommend you a detailed programme of exhibitors you can meet with at the fairground according to your product interests and schedule indicated in Part B and C.

Kindly fill in this application form and return to us by 12 October 2012. If you have any queries, please contact Mr Jake Lee at Tel: (852) 2240-4585, Fax: (852) 2270-5718 or email: ecoexpo.visitor@hktcdc.org.

Our exhibitors will be expecting you with your products in search prepared. We look forward to welcoming you to our Fair in Hong Kong.

PART A Matching Request According to EXHIBITOR LIST

We would like to meet with

No	Name of Company
1	
2	
3	
4	
5	

Please use additional sheet if space is not enough.

PART B Matching Request According to SPECIFIC PRODUCT INTEREST (May choose more than one)

Air Quality

- Air filtration system
- Air pollution & gas emission control
- Air purification & deodorisation technology and equipment
- Gas, smoke & chemical monitoring and treatment equipment
- Desulphurisation & dust control technology and equipment

Energy Efficiency & Energy

- Energy saving devices and products
- Renewable & alternative energy products
- Alternative energy machinery and technology
- Eco-friendly vehicles

Waste Management & Recycling

- Solid waste recycling technology and equipment
- Solid waste treatment, incineration & recycling systems
- Transport, collection & sorting of waste
- Biological treatment equipment
- Oil recycling technology and equipment
- Waste electrical and electronic equipment treatment and recycling systems

Eco-friendly Product

- Bio-degradable/ recycled plastic products
- Recycled paper products
- Bio-degradable & recycled products and packaging
- Bio-degradable & eco-friendly raw materials
- Organic products
- Nano technology and materials

Environmental Protection Service & Research

- Environmental-related education & training
- Environmental-related media & publications
- Green financing
- Sustainability consultancy

Environmental Protection Solution & Service

- Beach, coastal, harbour & marine protection
- Environmental project equipment and services
- Landfill containment
- Slope & ground management and protection
- Soil erosion control
- Research & consultation

Water Quality

- Water desalination & purification technology and equipment
- Sewage systems and treatment
- Water treatment and distribution
- Sewage maintenance
- Wastewater recycling technology and equipment

Control, Measuring and Laboratory Technology

- Quality inspection and testing services
- Environmental electronic surveillance, monitoring and management systems
- Environmental information & data processing
- Laboratory equipment & supplies

Green Building Solution & Service

- Energy efficient devices and systems
- Indoor air quality technology and systems
- Water saving devices and products
- Eco-friendly landscape designs
- Architectural & design services
- Green roof systems and green walls
- Eco-friendly materials for construction and fitting

Others

(Please name the specific product you are seeking if it is not listed above): _____

PART C Preferred Meeting Schedule (Please choose at least 2 sessions)

	27 Oct 2012	29 Oct 2012	30 Oct 2012
AM		<input type="checkbox"/>	<input type="checkbox"/>
PM	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PART D Company Information

Company Name _____

Address _____

Country _____

Contact Person _____ Title _____

Tel _____ Fax _____

Email _____

Website _____

Contact number from 27 – 30 October 2012 _____

Speaking language(s)

- Cantonese English Mandarin
 Others, please specify _____

Nature of business (can choose more than one)

- [School / Institute](#)
- [Trade Association & NGO](#)
- [Transportation and Logistics](#)
- [Others](#)

Architect, Building, Design, Survey and Contractor		
Co. Name / Booth No.	Company / Product Description	Product Photo
3Tech Corporate Limited, Hong Kong (Booth No.: TBC)	Renewable Energy Installations; Hybrid Power Systems; Carbon Audit; Electrical and Mechanical Services; Generators; Solar PV Panels; BIPV; Solar Hot Water Panels; Solar Lighting; Small Wind Turbines; Hybrid Power Systems	
Advanced Eco Engineering Ltd, Hong Kong (Booth No.: TBC)	<p><u>Food Waste Decomposer</u> Reduced the food waste volume and re-use the material.</p> <p><u>Mini Washing Machine</u> ozone generator to kill the bacteria to protect our health.</p> <p><u>Air Care Fan (Bladesless fan)</u> Provide a clean and new style flowing method</p>	
AET Flexible Space (Hong Kong) Limited, Hong Kong (Booth No.: TBC)	<p><u>AET Flexible Space Under Floor Air Conditioning System</u> Market leading Under Floor Air Conditioning (UFAC) System installed in more than 2.5 million m2 of commercial office space worldwide. AET's Flexible Space System demonstrates clear benefits when compared with traditional HVAC solutions including savings of: (a) 5-7% Construction costs; (b) 15% Building height; (c) 29% CO2 emissions; (d) 25% Construction time; (e) 25% Electrical consumption; (f) 30% Operating costs.</p> <p>The system makes use of the floor void directly as a plenum for the distribution of conditioned air. There are two standard configurations; floor level supply and return or floor level supply and high level return. AET can also design hybrid systems to be compatible with alternative HVAC solutions. Other benefits include enhanced user satisfaction and high indoor air quality.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>AI Research (HK) Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>VERUS VENT/NOETOS/INESQUE (AIR VENTILATION)</u> This is a complete system for mechanical ventilation, air treatment and illumination. This is ideal system for bathrooms, utility rooms, elevator and kitchen. It utilizes the air management technologies of purification, sterilization and sanitation.</p> <p><u>ASPIROTM COMMERCIAL KITCHEN VENTILATION –CKV SYSTEM (KITCHEN)</u> Commercial kitchen ventilation system is specially designed for EPS filtration and treatment of fume and mist produced during the cooking process. This is a very reliable, highly automatized and convenient to install and maintained. To achieve that, HV Power Pack Solution, systematic safety provisions and malfunction self-diagnosis are features to treat high temperature and large volume waste gas.</p>	
<p>Appleone Solution Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Svantek Sound & Vibration Meter</u> It is intended to general acoustic and vibration measurements, environmental monitoring, occupational health and safety monitoring.</p>	
<p>BillionGroup Technologies Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>E4Max LED Series & T5 Tube</u> No mercury (environmental friendly); energy saving up to 50% compact fluorescent lamp; and low temperature.</p> <p><u>BG SolarCool Window Film</u> Substantial A/C energy reduction, protect from sun heat; 99% UV blocking; 81% infra-red light blocking; high visibility; improve the indoor environment and the appearance of the building.</p> <p><u>BG SolarCool Thermal Paint</u> Substantial A/C energy reduction, protect from sun heat; 95% total heat low blocking; improve the appearance of the building; economical and practical.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>Biozone Scientific International Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>BioZone</u> An extensive range of air purifiers designed for removing particulates, odours, VOC's and the other air contaminants without creating secondary pollution. Using the unique BioZone "PhotoPlasma" technology, BioZone air purifiers can treat even the seriously contaminated areas like refuse rooms and sewage plants without using any chemicals. 12V DC is sufficient to operate most of the models (except those for heavy duty usage). The device is easy to install and with varying designs to suit different applications.</p>	<p>[Photo]</p>
<p>Burgeon Waste Sorting System Limited, Hong Kong (Booth No.: TBC)</p>	<p>Collection of solid waste will through the manual, mechanical, wind, electromagnetic, optical means, sorted into the metals, plastics, papers, electronics, organic wastes and other, and packaging handle respectively, so as to achieve the purpose of resources, is garbage incineration power generation, sanitary landfill ideal substitute. Burgeon provide from the design, manufacture, installation to financial. Products included: (1) Baled paper sorting system (with bale breaker); (2) Labor sorting system (e.g. construction and demolition; municipal waste etc); (3) Paper sorting system; (4) Plastic sorting system; (5) City MSW sorting system; (6) One stream sorting system; (7) Moving sorting machine; (8) Manual Sorting Machine.</p>	<p>[Photo]</p>
<p>Caballo Living Co., Limited, Hong Kong (Booth No.: TBC)</p>	<p>1/ Green Wall Planter; 2/ Natural Stone for Landscape; 3/ Organic Fertilizer; 4/ Electrical-free Sweeper</p>	
<p>Canon Hongkong Company Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Canon imageRUNNER ADVANCE series Multi-Functional Device</u> Canon imageRUNNER ADVANCE C5030 multifunction device is built to support your document workflows and enhance business communication. They offer high productivity and exceptional quality whilst safeguarding your confidential information and providing environmental support.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>Carpet Cleaner Dry Cleaning Systems Limited, Germany (Booth No.: TBC)</p>	<p>An agent of MayorPure, a German and Austrian based carpet cleaning solutions provider, the firm has developed an organic deep-cleaning solution for commercial carpet cleaning. Their solution utilises 98% natural and renewable materials - wood and com-based granules that are 100% biodegradable and phosphate-free.</p>	
<p>Calcite Indoor Environment Services Ltd, USA (Booth No.: TBC)</p>	<p><u>Mythic Non-Toxic Paint</u> VOC & Formaldehyde Free, Non Toxic Paint with over 1,200 colors</p>	
<p>Earth Products China Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>RUBBLE MASTER – Compact Mobile Crushers</u> It is also known as the Compact Recyclers. They are the specialists in recycling of rubble, asphalt and C&D wastes. After 20 years of development, RUBBLE MASTER has developed from the pioneer to the technology leader in the mobile impact crusher industry. By providing unique quality products, RUBBLE MASTER is one of the most successful crusher manufacturers around the globe. They provide comprehensive solutions for solid waste recyclers with reliable equipments that have low wear, low transportation costs, low energy consumption, low noise and low dust. The world is getting sick, why not help it now?</p>	
<p>Eco-Green Systems Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>ECO-Food Waste Processor</u> It makes use of, probiotics and Effective Microorganisms (EM), which operate at 50-60 degree Celsius to break down kitchen waste, turning them within 24-48 hours into solid organic fertilizer.</p> <p><u>VOC & CO2 Remover</u> It makes use of organic matter via LED Light to eliminate the VOC and CO2 content in the gas. Instantly improve the air quality.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>Ecorntech CB Korea, Corp, Korea (Booth No.: TBC)</p>	<p><u>Ecornboard™</u> Utilising cutting-edge technology, Ecorntech CB Korea has discovered a unique approach to extracting and processing wood powder and corn stalk fibre to produce high-quality Wood Plastic Composite and Corn Plastic Composite products. Known under their brand name "Ecornboard", these products are 100% recyclable, usable for multiple applications and are immune to decay, deformation, discoloration and cracking.</p>	
<p>Green Future Environmental Marketing Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Power Station</u> Power Station with new patent technology.</p> <p><u>CDM Street Light</u> CDM Street Light with high luminous efficiency, high CRI , high IP grade and longer life time.</p> <p><u>Hydrogen Engine Cleaner</u> Hydrogen Engine Cleaner is much easier in operation and maintenance, compare to other oxy-Hydrogen machine. Improve automobile engine performance.</p>	
<p>K.S. Greenland Limited, Hong Kong (Booth No.: TBC)</p>	<p>Our patented invention “<u>Green Mat</u>” can provide an intensive or extensive green roof for both new and existing / low-maintenance buildings without exceeding the building life loads, and features easy installation / maintenance, a short construction period and leak proofing. The radical breakthrough with “Green Mat” is that a green roof can be set up or dismantled swiftly without any impediment to roof maintenance. The base of “Green Mat” is elevated by tiny adjustable legs and leaves an air insulation layer above the roof surface. As such, heat conduction is cut off, and concrete erosion due to stagnant water is eliminated. “Green Mat” adopts the bottom communicating technique for water flow between units which can substantially save both water and the labour costs of manual watering.</p>	
<p>Keppel Integrated Engineering Limited, Singapore (Booth No.: TBC)</p>	<p>Keppel Integrated Engineering (KIE) is the environmental technology and engineering arm of Keppel Corporation Limited, a company listed in the Stock Exchange of Singapore. With its proprietary technologies and know-how in water, wastewater and water reuse, as well as treatment of municipal solid waste, biosolids, hazardous and medical waste, KIE offers complete water and thermal environmental solutions ranging from consultancy, design and engineering, construction, operation and maintenance of treatment facilities for municipal and industrial clients. In addition, KIE also offers an integrated range of expertise for mission critical facilities management and central district heating and cooling.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
Kukel Technology Company Limited, Hong Kong (Booth No.: TBC)	<p><u>KUKEL Thermostat Porcelain Energy Hot Shower</u> with a screen touch control panel, the output water temperature can be adjusted from 30 to 55 degree. The power consumption will be adjusted according to the temperature setting and water flow rate. Lower temperature setting or lower water flow rate, the usage of power will be lower which really makes the electricity becomes value of the hot water. KUKEL Thermostat Porcelain Energy Hot Shower saving more energy and water than the conventional water heater.</p>	
Magen Technology Co., Ltd., Hong Kong (Booth No.: TBC)	<p><u>[Water Clear Lotus] - Anti-scale Ionizer</u> [Lotus Ionizer] is the latest non-chemical water treatment technology developed to remove scale and perform disinfection. The technique crystallizes mineral salts (Calcium scale) directly from contaminated water onto unique Titanium Cage instead of heat exchanger. It also produces disinfection effect in killing bacteria and algae.</p>	<p>[Photo]</p>
ME Electronic Products Limited, Hong Kong (Booth No.: TBC)	<p>LED Lights and Energy Saving Green Products.</p>	
Ningbo Xianfeng New Material Co., Ltd, Chinese Mainland (Booth No.: TBC)	<p><u>APLUS</u> Eco-friendly, energy saving new polyester sunscreen products which have passed international environmental tests, such as Greenguard Certification (children & school, indoor air quality certified) and Oko-tex100 certification. Main products: Sunscreen Fabric (polyester, blackout, fine, metallic fabric, etc.), Interior Screen, Exterior Screen and so on.</p>	<p>[Photo]</p>

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>Power Assets Holdings Ltd., Hong Kong (Booth No.: TBC)</p>	<p><u>Low Carbon Electricity Generation</u> Power Assets is committed to sustainable developments with pro-active emission measures, increasing use of natural gas and investments in local renewable energy projects of solar and wind power systems to reduce our carbon footprint in power generation.</p>	
<p>Royal Service Group, USA (Booth No.: TBC)</p>	<p><u>Steril-Aire</u> Steril-Aire is a high energy germicidal UVC solutions. <u>Actutherm</u> A Terma-Fuser System-Commercial Airside Air Diffusing Energy Saving Product</p>	
<p>Shenzhen Gamepag Technical Co., Ltd, Chinese Mainland (Booth No.: TBC)</p>	<p><u>ME140X Solar Portable Irrigation System</u> ME140X Hi-Efficient moveable solar-powered irrigation system with the advanced technique of Maximum Power Point Tracking (MPPT) solar energy power supply system, used in watering lawn, garden and farmland etc. 65W, 12V DC, 35m head, 12L/min.</p>	
<p>Smart Remade Technology Development Company Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Doublecrystal Recycled Sand</u> Recycled the wasted glasses and break it into different size of doublecrystal sands. Those sands can be used for construction purpose such as making recycled bricks.</p>	

Co. Name / Booth No.	Company / Product Description	Product Photo
<p>Tritech Environment Technology Company Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>TRITECH E-Generated Exercise Bike</u> TRITECH E-Generated Exercise Bike combines the concepts of exercising and energy saving. It can turn riders' exercising effort into immediate electrical energy and save them up with a kit.</p> <p><u>TRITECH E-Saving LED Sensing Lights</u> TRITECH E-Saving LED Sensing Lights integrate light fittings and motion sensors to form a simple energy-saving illuminates with basic lights.</p>	
<p>Vannex International International Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>PCB Products</u> All products are made of 100% recycled materials. Some of the waste circuit boards can finally be transformed into various interesting, reusable and environmental friendly products, such as lamp, stationaries, DIY toys and mosaic etc.</p>	<p>[Photo]</p>

<p>Fukutomi Company Ltd, Hong Kong (Booth No.: TBC)</p>	<p>With more than 26 years of experience in sourcing and trading plastic scrap recycling materials from Europe, US. and Australia, associate companies were established globally to provide continuous and stable supply of recycled plastics. Representative offices were also set up in different cities in China to enhance our business opportunities.</p> <p>Utilizing our sustainable supply of secondary raw materials from recycled plastic, our production facility - Shantou Fukutomi Green Science and Technology Park - produces various eco-friendly products with environmental protection as our objective, example such as: Plastic pallets made of recycled materials, biodegradable Polylactid Acid (PLA) products, and etc.</p>	
<p>Global Energy Resource USA Inc, USA (Booth No.: TBC)</p>	<p><u>GER Food Waste Composter</u></p> <p>G.E.R. uses the newest technology to process kitchen food waste and food waste from food preparation directly in the source from restaurants, supermarkets, food processing factories, school cafeterias, and home kitchens. We use our food waste mechanical gear grinderis used to grind food including bones, shells and hard big bones into small pieces. Than those small pieces of food waste will be sent to another chamber for drying process to take place. This drying process is completely controlled by our patented micro-computer chip and the whole process is fully automatic. There is no additives, enzymes or microbes needed during the process for our machine. Thus, bad smell will be eliminated from normal fermentation process used by other manufacturers. In addition, an intact processing system and patent technology is employed to eliminate bad smell during the process, thus to optimize the kitchen environment.</p>	
<p>Green Globe Partner (China) Limited, Hong Kong (Booth No.: TBC)</p>	<p>Green Globe Partner (China) is the only authorized organization to provide auditing services for Green Globe certification in China, Hong Kong and Macau. Our professional accredited auditors are able to offer high quality auditing services with valuable comments to guide you through the whole certification process. Green Globe Partner (China) also provides one-stop consultation service for businesses to achieve the world highest standard of sustainable tourism and put such standard into practice in their daily operation. Our professional consultants are able to guide you through the certification process. They are able to offer valuable comments and advices in order to help your business to achieve the Green Globe standard.</p>

The power consumption will be adjusted according to the temperature setting and water flow rate. Lower temperature setting or lower water flow rate, the usage of power will be lower which really makes the electricity becomes value of the hot water. KUKEL Thermostat Porcelain Energy Hot Shower saving more energy and water than the conventional water heater.</p>	
Longyan Venezia Spa International Co., Ltd, Chinese Mainland (Booth No.: TBC)	<p><u>Composting Machine</u> Composting Machine by microorganism bacterium group more than processor, through the fermentation, dry, deodorizing treatment procedure, effectively putting the food wastes in situ degradation.</p>	
Magen Technology Co., Ltd., Hong Kong (Booth No.: TBC)	<p><u>[Water Clear Lotus] - Anti-scale Ionizer</u> [Lotus Ionizer] is the latest non-chemical water treatment technology developed to remove scale and perform disinfection. The technique crystallizes mineral salts (Calcium scale) directly from contaminated water onto unique Titanium Cage instead of heat exchanger. It also produces disinfection effect in killing bacteria and algae.</p>	<p>[Photo]</p>
Magical Film Enterprise Co., Ltd., Taiwan (Booth No.: TBC)	<p>Magical Film Enterprise Co Ltd is a Taiwan company supplying PLA film which made by extract of plant with chemical synthesis; Our raw material is from NatureWorks LLC Ingeo™, it contains non-toxic, non-irritating and biodegradable characteristics.</p> <p>PLA film is made by extrusion machine, and it has smooth surface and highly transparency. Products can be decomposed to water and carbon dioxide, have no impact on the environment. Approved by regulations of FDA, ROHS, REACH and VINCOTTE OK compost etc, it could be widely used in shopping bags, bouquet packaging, bakery bags, laminating with food containers, food packaging and printed twisting film for candy and snack series wrapping etc</p>

<p>Earth Products China Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>RUBBLE MASTER - Compact Mobile Crushers</u> RUBBLE MASTER Compact Mobile Crushers are also known as the Compact Recyclers. They are the specialists in recycling of rubble, asphalt and C&D wastes. After 20 years of development, RUBBLE MASTER has developed from the pioneer to the technology leader in the mobile impact crusher industry. By providing unique quality products, RUBBLE MASTER is one of the most successful crusher manufacturers around the globe. They provide comprehensive solutions for solid waste recyclers with reliable equipments that have low wear, low transportation costs, low energy consumption, low noise and low dust. The world is getting sick, why not help it now?</p>	
<p>Eco-Green Systems Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>ECO-Food Waste Processor</u> It makes use of, probiotics and Effective Microorganisms (EM), which operate at 50-60 degree Celsius to break down kitchen waste, turning them within 24-48 hours into solid organic fertilizer.</p> <p><u>VOC & CO2 Remover</u> It makes use of organic matter via LED Light to eliminate the VOC and CO2 content in the gas. Instantly improve the air quality.</p>	
<p>Ecorntech CB Korea, Corp, Korea (Booth No.: TBC)</p>	<p><u>Ecornboard™</u> Utilising cutting-edge technology, Ecorntech CB Korea has discovered a unique approach to extracting and processing wood powder and corn stalk fibre to produce high-quality Wood Plastic Composite and Corn Plastic Composite products. Known under their brand name "Ecornboard", these products are 100% recyclable, usable for multiple applications and are immune to decay, deformation, discoloration and cracking.</p>	
<p>Fukutomi Company Ltd, Hong Kong (Booth No.: TBC)</p>	<p>With more than 26 years of experience in sourcing and trading plastic scrap recycling materials from Europe, US. and Australia, associate companies were established globally to provide continuous and stable supply of recycled plastics. Representative offices were also set up in different cities in China to enhance our business opportunities.</p> <p>Utilizing our sustainable supply of secondary raw materials from recycled plastic, our production facility - Shantou Fukutomi Green Science and Technology Park - produces various eco-friendly products with environmental protection as our objective, example such as: Plastic pallets made of recycled materials, biodegradable Polylactid Acid (PLA) products, and etc.</p>

<p>Global Energy Resource USA Inc, USA (Booth No.: TBC)</p>	<p><u>GER Food Waste Composter</u> G.E.R. uses the newest technology to process kitchen food waste and food waste from food preparation directly in the source from restaurants, supermarkets, food processing factories, school cafeterias, and home kitchens. We use our food waste mechanical gear grinderis used to grind food including bones, shells and hard big bones into small pieces. Than those small pieces of food waste will be sent to another chamber for drying process to take place. This drying process is completely controlled by our patented micro-computer chip and the whole process is fully automatic. There is no addictives, enzymes or microbes needed during the process for our machine. Thus, bad smell will be eliminatedfrom normal fermentation process used by other manufacturers. In addition, an intact processing system and patent technology is employed to eliminate bad smell during the process, thus to optimize the kitchen environment.</p>	
<p>Green Future Environmental Marketing Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Power Station</u> Power Station with new patent technology.</p> <p><u>CDM Street Light</u> CDM Street Light with high luminous efficiency, high CRI , high IP grade and longer life time.</p> <p><u>Hydrogen Engine Cleaner</u> Hydrogen Engine Cleaner is much easier in operation and maintenance, compare to other oxy-Hydrogen machine. Improve automobile engine performance.</p>	
<p>Green Globe Partner (China) Limited, Hong Kong (Booth No.: TBC)</p>	<p>Green Globe Partner (China) is the only authorized organization to provide auditing services for Green Globe certification in China, Hong Kong and Macau. Our professional accredited auditors are able to offer high quality auditing services with valuable comments to guide you through the whole certification process. Green Globe Partner (China) also provides one-stop consultation service for businesses to achieve the world highest standard of sustainable tourism and put such standard into practice in their daily operation. Our professional consultants are able to guide you through the certification process. They are able to offer valuable comments and advices in order to help your business to achieve the Green Globe standard.</p>

<p>Growing Solutions Incorporated, USA (Booth No.: TBC)</p>	<p><u>Growing Solution Compost Tea Systems / Compost Tea Catalyst / Compost Tea Sprayers</u> Growing Solutions offers a highly cost effective alternative to traditional fertility and water management practices for landscaping and agriculture. Our technology reduces water requirements and fertility inputs by correcting soil imbalances. Specifically, our Compost Tea Systems produce beneficial microbial organisms in high concentrations that when applied to soils create optimum aggregate structure. As a result, an increase in water holding capacity and a decrease in crop nutritional requirements is achieved.</p>	
<p>Hop Fat Auto Accessories Fty, Hong Kong (Booth No.: TBC)</p>	<p><u>“Jie bao” Engine Eco Saving Device (EES Device)</u> EES Device is a device that could be installed in the middle of the plastic gasoline tube in the car / engine. Once the gasoline pass this device, the combustion quality of gasoline will be improved, it reduces gasoline usage by 15%.</p>	
<p>Jetlun (Hong Kong) Ltd., Hong Kong (Booth No.: TBC)</p>	<p><u>Intelligent Energy Management Solution</u></p>	<p>[Photo]</p>
<p>K.S. Greenland Limited, Hong Kong (Booth No.: TBC)</p>	<p>Our patented invention “<u>Green Mat</u>” can provide an intensive or extensive green roof for both new and existing / low-maintenance buildings without exceeding the building life loads, and features easy installation / maintenance, a short construction period and leak proofing. The radical breakthrough with “Green Mat” is that a green roof can be set up or dismantled swiftly without any impediment to roof maintenance. The base of “Green Mat” is elevated by tiny adjustable legs and leaves an air insulation layer above the roof surface. As such, heat conduction is cut off, and concrete erosion due to stagnant water is eliminated. “Green Mat” adopts the bottom communicating technique for water flow between units which can substantially save both water and the labour costs of manual watering.</p>

<p>CMA Testing & Certification Laboratories Limited, Hong Kong (Booth No.: TBC)</p>	<p>CMA Testing and Certification Laboratories (CMA Testing) has been standing at the forefront in offering a wide range of environmental testing and consultancy services. Possessing the latest equipments and a dynamic team of experts, we offer comprehensive environmental solutions to enterprises, schools, shopping malls, private properties, commercial buildings and government authorities.</p> <p><u>Accreditation</u></p> <ul style="list-style-type: none"> - Hong Kong Laboratory Accreditation Scheme (HOKLAS) - Hong Kong Inspection Body Accreditation Scheme (HKIAS) – the 1st Accredited Certificate Issuing Body for Indoor Air Quality 	
<p>Dunwell Environmental Management Company Ltd, Hong Kong (Booth No.: TBC)</p>	<p>Seeking used oil recyclers and marketing / referral partners worldwide, Dunwell has 17 years of oil recycling experience in Hong Kong. VMAT is already proven technologies on used oil recycling:</p> <ul style="list-style-type: none"> - Turn used oil into finished lube - Modular design (capacity starts from 500 m³ to 15,000 m³/year) - Low temperature (85°C) and fast payback (2 years) 	
<p>Earth Products China Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>RUBBLE MASTER - Compact Mobile Crushers</u></p> <p>RUBBLE MASTER Compact Mobile Crushers are also known as the Compact Recyclers. They are the specialists in recycling of rubble, asphalt and C&D wastes. After 20 years of development, RUBBLE MASTER has developed from the pioneer to the technology leader in the mobile impact crusher industry. By providing unique quality products, RUBBLE MASTER is one of the most successful crusher manufacturers around the globe. They provide comprehensive solutions for solid waste recyclers with reliable equipments that have low wear, low transportation costs, low energy consumption, low noise and low dust. The world is getting sick, why not help it now?</p>	
<p>Eco-Green Systems Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>ECO-Food Waste Processor</u></p> <p>It makes use of, probiotics and Effective Microorganisms (EM), which operate at 50-60 degree Celsius to break down kitchen waste, turning them within 24-48 hours into solid organic fertilizer.</p> <p><u>VOC & CO2 Remover</u></p> <p>It makes use of organic matter via LED Light to eliminate the VOC and CO2 content in the gas. Instantly improve the air quality.</p>

<p>Fukutomi Company Ltd, Hong Kong (Booth No.: TBC)</p>	<p>With more than 26 years of experience in sourcing and trading plastic scrap recycling materials from Europe, US. and Australia, associate companies were established globally to provide continuous and stable supply of recycled plastics. Representative offices were also set up in different cities in China to enhance our business opportunities.</p> <p>Utilizing our sustainable supply of secondary raw materials from recycled plastic, our production facility - Shantou Fukutomi Green Science and Technology Park - produces various eco-friendly products with environmental protection as our objective, example such as: Plastic pallets made of recycled materials, biodegradable Polylactid Acid (PLA) products, and etc.</p>	
<p>Global Energy Resource USA Inc, USA (Booth No.: TBC)</p>	<p><u>GER Food Waste Composter</u> G.E.R. uses the newest technology to process kitchen food waste and food waste from food preparation directly in the source from restaurants, supermarkets, food processing factories, school cafeterias, and home kitchens. We use our food waste mechanical gear grinderis used to grind food including bones, shells and hard big bones into small pieces. Than those small pieces of food waste will be sent to another chamber for drying process to take place. This drying process is completely controlled by our patented micro-computer chip and the whole process is fully automatic. There is no addictives, enzymes or microbes needed during the process for our machine. Thus, bad smell will be eliminatedfrom normal fermentation process used by other manufacturers. In addition, an intact processing system and patent technology is employed to eliminate bad smell during the process, thus to optimize the kitchen environment.</p>	
<p>Green Future Environmental Marketing Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Power Station</u> Power Station with new patent technology.</p> <p><u>CDM Street Light</u> CDM Street Light with high luminous efficiency, high CRI , high IP grade and longer life time.</p> <p><u>Hydrogen Engine Cleaner</u> Hydrogen Engine Cleaner is much easier in operation and maintenance, compare to other oxy-Hydrogen machine. Improve automobile engine performance.</p>

K.S. Greenland Limited, Hong Kong (Booth No.: TBC)	Our patented invention “ <u>Green Mat</u> ” can provide an intensive or extensive green roof for both new and existing / low-maintenance buildings without exceeding the building life loads, and features easy installation / maintenance, a short construction period and leak proofing. The radical breakthrough with “Green Mat” is that a green roof can be set up or dismantled swiftly without any impediment to roof maintenance. The base of “Green Mat” is elevated by tiny adjustable legs and leaves an air insulation layer above the roof surface. As such, heat conduction is cut off, and concrete erosion due to stagnant water is eliminated. “Green Mat” adopts the bottom communicating technique for water flow between units which can substantially save both water and the labour costs of manual watering.

Keppel Integrated Engineering Limited, Singapore (Booth No.: TBC)	Keppel Integrated Engineering (KIE) is the environmental technology and engineering arm of Keppel Corporation Limited, a company listed in the Stock Exchange of Singapore. With its proprietary technologies and know-how in water, wastewater and water reuse, as well as treatment of municipal solid waste, biosolids, hazardous and medical waste, KIE offers complete water and thermal environmental solutions ranging from consultancy, design and engineering, construction, operation and maintenance of treatment facilities for municipal and industrial clients. In addition, KIE also offers an integrated range of expertise for mission critical facilities management and central district heating and cooling.	
Kukel Technology Company Limited, Hong Kong (Booth No.: TBC)	<u>KUKEL Thermostat Porcelain Energy Hot Shower</u> with a screen touch control panel, the output water temperature can be adjusted from 30 to 55 degree. The power consumption will be adjusted according to the temperature setting and water flow rate. Lower temperature setting or lower water flow rate, the usage of power will be lower which really makes the electricity becomes value of the hot water. KUKEL Thermostat Porcelain Energy Hot Shower saving more energy and water than the conventional water heater.	
Li Tong Group, Hong Kong (Booth No.: TBC)	<u>One-stop Electronics Recycling & Reverse Supply Chain Management</u> Electronics Recycling, Reversed Supply Chain Management, Asset Management, Data Wipe & Degaussing, Ink & Tower Cartridges Reclamation System	
Magen Technology Co., Ltd., Hong Kong (Booth No.: TBC)	<u>[Water Clear Lotus] - Anti-scale Ionizer</u> [Lotus Ionizer] is the latest non-chemical water treatment technology developed to remove scale and perform disinfection. The technique crystallizes mineral salts (Calcium scale) directly from contaminated water onto unique Titanium Cage instead of heat exchanger. It also produces disinfection effect in killing bacteria and algae.	[Photo]

K.S. Greenland Limited, Hong Kong (Booth No.: TBC)	Our patented invention “Green Mat” can provide an intensive or extensive green roof for both new and existing / low-maintenance buildings without exceeding the building life loads, and features easy installation / maintenance, a short construction period and leak proofing. The radical breakthrough with “Green Mat” is that a green roof can be set up or dismantled swiftly without any impediment to roof maintenance. The base of “Green Mat” is elevated by tiny adjustable legs and leaves an air insulation layer above the roof surface. As such, heat conduction is cut off, and concrete erosion due to stagnant water is eliminated. “Green Mat” adopts the bottom communicating technique for water flow between units which can substantially save both water and the labour costs of manual watering.	
Li Tong Group, Hong Kong (Booth No.: TBC)	<u>One-stop Electronics Recycling & Reverse Supply Chain Management</u> Electronics Recycling, Reversed Supply Chain Management, Asset Management, Data Wipe & Degaussing, Ink & Tower Cartridges Reclamation System	
Magen Technology Co., Ltd., Hong Kong (Booth No.: TBC)	<u>[Water Clear Lotus] - Anti-scale Ionizer</u> [Lotus Ionizer] is the latest non-chemical water treatment technology developed to remove scale and perform disinfection. The technique crystallizes mineral salts (Calcium scale) directly from contaminated water onto unique Titanium Cage instead of heat exchanger. It also produces disinfection effect in killing bacteria and algae.	[Photo]

Kukel Technology Company Limited, Hong Kong (Booth No.: TBC)	<u>KUKEL Thermostat Porcelain Energy Hot Shower</u> with a screen touch control panel, the output water temperature can be adjusted from 30 to 55 degree. The power consumption will be adjusted according to the temperature setting and water flow rate. Lower temperature setting or lower water flow rate, the usage of power will be lower which really makes the electricity becomes value of the hot water. KUKEL Thermostat Porcelain Energy Hot Shower saving more energy and water than the conventional water heater.	
Li Tong Group, Hong Kong (Booth No.: TBC)	<u>One-stop Electronics Recycling & Reverse Supply Chain Management</u> Electronics Recycling, Reversed Supply Chain Management, Asset Management, Data Wipe & Degaussing, Ink & Tower Cartridges Reclamation System	
Magen Technology Co., Ltd., Hong Kong (Booth No.: TBC)	<u>[Water Clear Lotus] - Anti-scale Ionizer</u> [Lotus Ionizer] is the latest non-chemical water treatment technology developed to remove scale and perform disinfection. The technique crystallizes mineral salts (Calcium scale) directly from contaminated water onto unique Titanium Cage instead of heat exchanger. It also produces disinfection effect in killing bacteria and algae.	[Photo]
ME Electronic Products Limited, Hong Kong (Booth No.: TBC)	LED Lights and Energy Saving Green Products.	

Co. Name / Booth No.	Company / Product Description	Product Photo
Power Assets Holdings Ltd., Hong Kong (Booth No.: TBC)	<u>Low Carbon Electricity Generation</u> Power Assets is committed to sustainable developments with pro-active emission measures, increasing use of natural gas and investments in local renewable energy projects of solar and wind power systems to reduce our carbon footprint in power generation.	
Shanghai Disoxidation Macromolecule Materials Co., Ltd. , Chinese Mainland (Booth No.: TBC)	Shanghai Disoxidation Macromolecule Materials Co., Ltd. (DM) is a high-tech enterprise comprised of R&D, producing and sales of environment-friendly materials with annual 20,000 tons Biodegradable Starch Resin (BSR [®]) production capacity, is one of the largest productions base in China. BSR [®] biodegradable materials through Belgium OWS (the world's most authoritative industry organization) detection, compliance with EN13432, ASTM D6400, ISO17088:2008 standard and obtained OK COMPOST certificate, SGS, ISO9001:2008 certificates etc. It is applicable in all applications, such as biodegradable trash bags, t-shirt bags, shopping bags, promotion bags, packaging etc.	
Shenzhen Gamepag Technical Co., Ltd, Chinese Mainland (Booth No.: TBC)	<u>ME140X Solar Portable Irrigation System</u> ME140X Hi-Efficient moveable solar-powered irrigation system with the advanced technique of Maximum Power Point Tracking (MPPT) solar energy power supply system, used in watering lawn, garden and farmland etc. 65W, 12V DC, 35m head, 12L/min.	
Sunway Environmental Technology Co., Ltd, Hong Kong (Booth No.: TBC)	<u>Odour Impact Assessment, IAQ Monitoring</u> <ul style="list-style-type: none"> - Providing Sampling Air Bag - Odour inspection patrol by calibrated panelists - Determination of odour intensity, hedonic tone - Odour sampling - Odour Unit measurement (Olfactometry) - Odour Dispersion Modeling - Real time E-Nose odour monitoring - Odour control

<p>Green Future Environmental Marketing Limited, Hong Kong (Booth No.: TBC)</p>	<p><u>Power Station</u> Power Station with new patent technology.</p> <p><u>CDM Street Light</u> CDM Street Light with high luminous efficiency, high CRI , high IP grade and longer life time.</p> <p><u>Hydrogen Engine Cleaner</u> Hydrogen Engine Cleaner is much easier in operation and maintenance, compare to other oxy-Hydrogen machine. Improve automobile engine performance.</p>	
<p>Green Globe Partner (China) Limited, Hong Kong (Booth No.: TBC)</p>	<p>Green Globe Partner (China) is the only authorized organization to provide auditing services for Green Globe certification in China, Hong Kong and Macau. Our professional accredited auditors are able to offer high quality auditing services with valuable comments to guide you through the whole certification process. Green Globe Partner (China) also provides one-stop consultation service for businesses to achieve the world highest standard of sustainable tourism and put such standard into practice in their daily operation. Our professional consultants are able to guide you through the certification process. They are able to offer valuable comments and advices in order to help your business to achieve the Green Globe standard.</p>	
<p>Hop Fat Auto Accessories Fty, Hong Kong (Booth No.: TBC)</p>	<p><u>“Jie bao” Engine Eco Saving Device (EES Device)</u> EES Device is a device that could be installed in the middle of the plastic gasoline tube in the car / engine. Once the gasoline pass this device, the combustion quality of gasoline will be improved, it reduces gasoline usage by 15%.</p>	
<p>K.S. Greenland Limited, Hong Kong (Booth No.: TBC)</p>	<p>Our patented invention “<u>Green Mat</u>” can provide an intensive or extensive green roof for both new and existing / low-maintenance buildings without exceeding the building life loads, and features easy installation / maintenance, a short construction period and leak proofing. The radical breakthrough with “Green Mat” is that a green roof can be set up or dismantled swiftly without any impediment to roof maintenance. The base of “Green Mat” is elevated by tiny adjustable legs and leaves an air insulation layer above the roof surface. As such, heat conduction is cut off, and concrete erosion due to stagnant water is eliminated. “Green Mat” adopts the bottom communicating technique for water flow between units which can substantially save both water and the labour costs of manual watering.</p>
